

## P300X

Up to 4,95 meters in total safety

The P300X is a self-propelled scissor lift specifically designed for low-level access and built to withstand the demands of everyday on-site use, while offering advanced safety features. It is designed to be extremely user-friendly, even in challenging construction site conditions. It provides basket extension on both sides thanks to the central scissor mechanism, while maintaining compact dimensions and low weight. Its robust wheels allow it to easily overcome ground obstacles.

- Drivable on slopes of up to 35%
- IP55 – resistant to water and weather conditions
- Basket extension on both sides
- Battery indicator
- Forklift pockets
- Easily fits through standard doors
- Built for heavy-duty use on site
- Outdoor rated

### SELF-PROPELLED SCISSOR LIFT WITH DOUBLE EXTENSION

- Eco- friendly
- No CO<sub>2</sub> emissions or oil leaks
- Low maintenance costs
- 8 hours of continuous operation

### SAFETY

- Pothole Protection System
- Unidirectional brake pedal on rear wheels
- Tilt sensor
- Mechanical and electrical emergency lowering system
- Overload alarm.

### TECHNICAL DATA

#### Dimension:

Max. Working Height: 4,95 m | Max. Platform Height: 2,95 m  
Overall Width: 765 mm | Overall Length: 1294 mm  
Stowed Height: 1821 mm  
Work Platform: 501x 1169 mm  
Ground Clearance: 50 mm  
Extension length: 300 + 300 mm

#### Performance:

Platform Capacity SWL: 240kg / 1 pers.  
Tool Tray Capacity: 20 kg

High resistance powdered paint Orange RAL 2000  
Marking and conformity CE- Compliance with the standard EN 280

#### Power:

Power Source: 24 Volt DC Battery
