

AXOLIFT: Offering smart and safe alternatives to ladders

Elift 350

Up to 5 meters in total safety

www.axolift.com

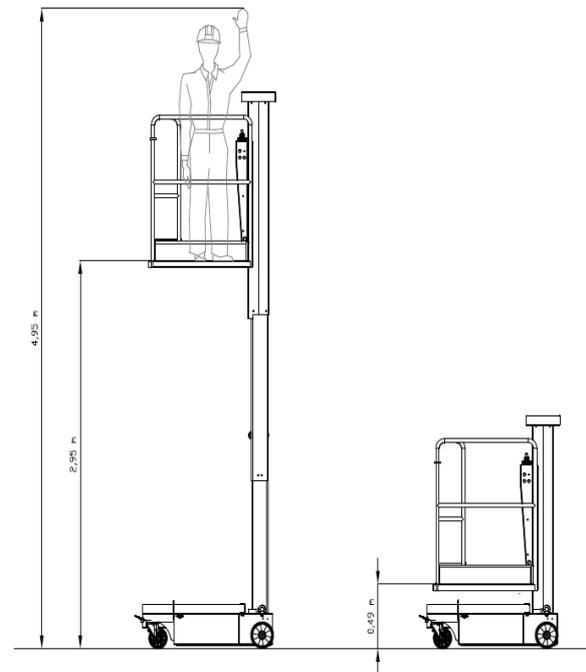

ELIFT 350: A completely eco-friendly and zero-emission machine!

- Without any engine.
- Without CO2 emission or gas leakage
- No hydraulic system therefore no risk of leakage
- Maintenance is virtually non-existent so the costs are reduced

ELIFT 350 platform is a non-motorized vertical mast platform that allows you to work in complete safety up to a working height maximum of 5.00 m.

The ELIFT 350 platform is a simple, high-performance alternative and secured to traditional stepladders, PIRL, steps and others rolling scaffolds. It's safe, ideal for picking operations in stores, warehouses, shopping centers or offices.

SAFETY:

- Self-locking INOX access door.
- Foot brake on front wheel.
- Spirit level for horizontal control.
- Emergency mechanical button.
- Emergency electrical button.

ELIFT 350 technical data

Operating dimensions:

Max. Working Height:	4,95 m
Max. Height Of The Base:	2,95 m
Max. Height Of The Tablet:	3,35 m
Max. Load Capacity On The Platform:	180kg / 1 pers.
Max. Load Capacity On The Tablet:	20 kg
Max. Lateral Load:	200 N
Maximum Force To Be Exerted On The Handle:	-5 daN
Allowable Cant:	0°- Internal Use
Allowable Wind:	0km/h- Internal Use
Front Wheel:	185,1 mm
Rear Wheel:	98 mm
Ground Clearance:	390 mm
High resistance paint Orange RAL 2000	
Marking and conformity CE- Compliance with the standard EN 280	

Dimensions and Weight:

Dimensions Of The Machine:	1215x 765x 1765 mm
Dimensions Of The Platform:	890x 645 mm
Dimensions Of The Tablet:	580x 300 mm
Weight Of The Machine:	380 kg
Weight Of The Machine With Charge:	560 kg
